*Plant Cell, Tissue and Organ Culture* **45:** 287–290, 1996.

# CONTENTS Volume 45 1996

**Volume 45 No. 1**

*Original research papers*

**Development of photoautotrophy and photoinhibition of *Gardenia jasminoides* plantlets during micropropagation** 1–16
M.D. Serret, M.I. Trillas, J. Matas, J.L. Araus

**Canavanine metabolism in tissue cultures of *Canvalia lineata*** 17–23
In Doo Hwang, Sang-Gu Kim, Young Myung Kwon

**The effect of 6-deoxy-D-fructose on flavour bioformation from strawberry (*Fragaria* x *ananassa*, cv. Elsanta) callus cultures** 25–29
I. Zabetakis, M.A. Holden

**Inhibition of CAT enzyme activity in *Arabidopsis thaliana*** 31–36
M. Röver, A. Matzk, B. Baker, J. Schiemann, R.Hehl

**Isolation of reduced genotypes of *Hieracium pilosella* using anther culture** 37–41
R.A. Bicknell, N.K. Borst

**Callus induction and plant regeneration from different explant types of *Miscanthus* × *ogiformis* Honda 'Giganteus'** 43–52
I.B. Holme, K.K. Petersen

**Changes in antioxidant enzymes and organic solutes associated with adaptation of citrus cells to salt stress** 53–60
A. Piqueras, J.A. Hernández, E. Olmos, E. Hellín, F. Sevilla

***In vitro* plantlet regeneration from cotyledon, hypocotyl and root explants of hybrid seed geranium** 61–66
C. Chang, B.A. Moll, K.B. Evenson, M.J. Guiltinan

**Callus cultures of *Artemisia absinthium* L.: initiation, growth optimization and organogenesis** 67–72
S. Nin, E. Morosi, S. Schiff, A. Bennici

**Somatic hybridization between *Solanum ochranthum* and *Lycopersicon esculentum*** 73–78
R.S. Kobayashi, J.R. Stommel, S.L. Sinden

**Efficient propagation of protocorm-like bodies of *Phalaenopsis* in liquid medium** 79–86
Yong Soo Park, Syuuichi Kakuta, Atsushi Kano, Mitsuyasu Okabe

*Research notes*

***In vitro* micropropagation from nodal segments of *Cleisthanthus collinus*** 87–91
Afaque Quraishi, Vijaya Koche, S.K. Mishra

**Influence of tissue culture conditions on apogamy in *Dryopteris affinis* sp. *affinis*** 93–97
H. Fernandez, A.M. Bertrand, R. Sanchez-Tames

**Volume 45 No. 2**

*Original research papers*

**Somatic embryogenesis and organogenesis in *Encephalartos dyerianus* and *E. natalensis*** 99–102
A.K. Jäger, J. van Staden

**Uptake of mannitol from the media by *in vitro* grown plants** 103–107
H. Lipavská, D. Vreugdenhil

**The effects of reduced nitrogenous compounds suggests that glutamine synthetase activity is inolved in the development of somatic embryos in carrot** 109–114
Katsumi Higashi, Hiroshi Kamada, Hiroshi Harada

**Direct regeneration of transformed plants from stem fragments of potato inoculated with *Agrobacterium rhizogenes*** 115–121
A. Dobigny, S. Tizroutine, C. Gaisne, R. Haïcour, L. Rossignol, G. Ducreux, D. Sihachakr

**Production of solamargine by *in vitro* cultures of *Solanum paludosum*** 123–127
H. El Badaoui, B. Muguet, M. Henry

**Somatic embryo induction in *Eucalyptus dunnii*** 129–132
R.R. Termignoni, Po-Jen Wang, Ching-Yeh Hu

**Effect of light on vanillin precursors formation by *in vitro* cultures of *Vanilla planifolia*** 133–136
D. Havkin-Frenkel, A. Podstolski, D. Knorr

**Effect of plumule and radicle on somatic embryogenesis in the cultures of ginseng zygotic embryos** 137–143
Yong Eui Choi, Woong Young Soh

**Plant regeneration and genetic transformation of *Lotus angustissimus*** 145–152
E. Nenz, F. Pupilli, F. Paolocci, F. Damiani, C.A. Cenci, S. Arcioni

**Stimulation of the growth and solamargine production by *Solanum paludosum* multiple shoot cultures using a new culture medium** 153–158
H. El Badaoui, P. Morard, M. Henry

**Influence of physical conditions of nutrient medium and sucrose on somatic embryogenesis of date palm** 159–164
J. Veramendi, L. Navarro

*Research notes*

**Rapid plant regeneration of pea using thidiazuron** 165–168
M.H.M. Sanago, V.I. Shattuck, J. Strommer

**Transgenic carnation plants obtained by *Agrobacterium tumefaciens*–mediated transformation of petal explants** 169–173
A.-C. van Altvorst, H. Koehorst, J. de Jong, H.J.M. Dons

**Production and use of calli from yellow birch buds for *in vitro* assessment of virulence of *Nectria galligena* isolates** 175–177
Dian-Qing Yan, L. Bernier

**Volume 45 No. 3**

*Original research papers*

**Division frequency of pea protoplasts in relation to starch accumulation** 179–183
T. Gram, O. Mattsson, M. Joersbo

**Regeneration of plants from callus tissue of *Aeschynomene* spp. (Leguminosae)** 185–190
H.Y. Rey, L.A. Mroginski

**Galanthamine production in "shoot-clump" cultures of *Narcissus confusus* in liquid-shake medium** 191–199
S. Bergoñón, C. Codina, J. Bastida, F. Viladomat, E. Melé

**The rare occurrence of plant tissue culture contamination by *Methylobacterium mesophilicum*** 201–205
J.M. Widholm

**High frequency shoot regeneration from leaf explants of muskmelon** 207–214
R.C. Yadav, M.T. Saleh, R. Grumet

**Nodal segments or microtubers as explants for *in vitro* microtuber production of potato** 215–222
S. Khuri, J. Moorby

**Transgenic periwinkle tissues overproducing cytokinins do not accumulate enhanced levels of indole alkaloids** 223–230
F. Garnier, P. Label, D. Hallard, J-C. Chénieux, M. Rideau, S. Hamdi

***In vitro* regeneration of evergreen azalea from leaves** 231–236
M. Mertens, S. Werbrouck, G. Samyn, H. Botelho dos Santos Moreira da Silva, P. Debergh

**Direct somatic embryogenesis through thin cell layer culture in *Panax ginseng*** 237–249
I.O. Ahn, B. Van Le, C. Gendy, K. Tran Thanh Van

**Adventitious bud formation and shoot development from *in vitro* leaves of *Vitis* x *Muscadinia* hybrids** 245–252
L. Torregrosa, A. Bouquet

**Genetic studies of anther culture ability in rice (*Oryza sativa*)** 253–258
Juqiang Jan, Qingzhong Xue, Jun Zhu

*Research notes*

**Micropropagation of *Lavandula latifolia* through nodal bud culture of mature plants** 259–262
M. Carlos Sánchez-Gras, M. del Carmen Calvo

***In vitro* culture of *Foeniculum vulgare*: callus characteristics in relation to morphogenesis** 263–268
M. Anzidei, L. Vivona, S. Schiff, A. Bennici

**Influence of 2,4-D and lactose of pollen embryogenesis in anther culture of potato** 269–272
L. Říhova, J. Tupý

**Eugenol from normal and transformed root cultures of *Coluria geoides*** 273–276
O. Olzowska, A.W. Alfermann, M. Furmanowa

***In vitro* multiplication in liquid culture of *Synoglum* contaminated with *Bacillus* spp. and *Rathaybacter tritici*** 277–280
R. Levin, R. Stav, Y. Alper, A.A. Watad

***Acmella oppositifolia* micropropagination by single-node culture** 281–282
R. Salgado-Garciglia, G. Elizarraraz, J. Molina-Torres

**Instructions to Authors** **283–285**
**Volume Contents** **287–290**
**Author Index** **291**
